

Nidek Cpap Machine- Auto Cpap

The NiDEK Auto-CPAP delivers great value, simplicity and quiet performance in a very small package. The NiDEK Auto-CPAP offers an Auto mode with automatic altitude adjustment, in addition to compliance and efficiency monitoring with the facility to record data in a micro SD card.

The NiDEK Auto-CPAP flow sensing technology utilizes a special honeycomb structure to create a constant flow resistance for minimizing pressure swings. The net result is a quiet and smooth performance that provides effective Auto-CPAP therapy. The NiDEK Auto-CPAP also offers options such as auto start, alarm and C-RELIEF technology.

Product Features

- Value in a very small package
- Automatic altitude adjustment
- Flow sensing technology
- Automatic stop after put off mask.
- Clock with a functional alarm
- Micro SD card, Sleep Apnea Analysis Software.

Mode	CPAP, APAP
Max Pressure	20 cm H2O
Min Pressure	4 cm H2O
Ramp	0-60 min
Alarm	Power Failure, Mask, Snoring
C-RELIEF	1-3
Display	2.8 inch Colour
Noise Level	Less than 30db@10 cm H2O
Memory	Micro SD
Dimension	21 x 11 x 11 cm
Humidifier	Optional
Warranty	Two years
